

Interconnect Solutions For Defense & Aerospace

Mil-Con's Core Strengths:

- Audio Connectors
- Cable Assemblies
- Turn-Key Solutions, Subassemblies, and Integrated Products
- Custom and Application Specific Designs
- Global Customer Support
- World-Class Customer Service

Mil-Con, Inc. was founded in 1983 as a manufacturer of 5 and 6-pin audio connectors for ground and airborne military communications equipment. Today its products include connectors and cable assemblies for audio, antenna, battery, data, and filtered applications. Mil-Con has brought new innovations to critical defense programs with high-density, reduced size, and EMI filtered connectors, many of which have become industry standards. Mil-Con's design expertise includes mechanical, electrical, environmental, and RF/Microwave disciplines.
